Employment decisions will be made on the basis of each applicant's job qualifications, experience, and abilities.

Hiring Compensation Scales by Pay Grade

Pay grades represent the internal job classification as well as external job market pay levels. The greater the level of compensable factors present in a job, the higher the placement in the pay grade structure. Jobs with similar overall degrees of compensable factors will be in the same pay grade. A minimum and maximum pay rate for each grade is computed from the midpoint using technical standards that are designed to maintain pay equity or fair pay for each job in the system of jobs.

Newly hired employees shall be assigned to a pay grade and paid a salary rate between the minimum and maximum (inclusive). Annual amounts for non-exempt employees are based on 8 hours per day.

The Lago Vista ISD administration office shall determine hiring rates based upon job-related qualifications, previous experience, and salaries of other employees in the same position. Salary placement strategies may be different for each employee group, consistent with the attainment of District goals.

Job Classification

District jobs are assigned to pay grades based upon compensable factors and grouped with jobs of similar value. On a periodic basis, selected jobs from each job family will be reviewed to ensure that conditions in the District, such as organizational structure, major programs, or significant responsibilities in a particular job, have not changed to a degree warranting a change in job grade classification.

Reclassification

On a periodic basis, jobs may be reclassified into a different pay grade, or salaries may be adjusted within pay grades in order to maintain internal/external equity to other jobs of similar worth in the District. Reclassification of a job is not a promotion or demotion. Reclassification changes result when there has been a significant modification of job duties, compensation, or qualifications as determined

by the District. If an employee's job is reclassified, no special increase has to be given unless the employee is below the minimum for the new pay grade or the current job incumbent's pay rate is in an inequitable position in comparison to comparable jobs.

Pay Increases

Regular or general salary advancement is considered annually by the Board of Trustees. The Superintendent shall recommend to the Board an amount for employee pay increases as part of the annual budget. General pay increase recommendations presented to the Board of Trustees by the administration shall be based on consideration of such factors as cost of living indexes, wage increases within competitive job markets, and budget resources. Any pay adjustments for individual employees shall be determined within the approved budget following established procedures.

Supplemental Stipends

Supplemental stipends used to compensate professional "exempt" staff for extra assignments and/or extra duty beyond the normal workday or duty calendar. Stipends are defined as a flat amount that is paid to a professional employee for performing a specific assignment such as sponsoring an event, coaching a sport, or leading a group. If an employee does not complete the full work assignment, the stipend shall be prorated to compensate for the portion of the assignment verified by the immediate supervisor as complete.

Stipends will generally not be paid to non-exempt staff. In the event that an exception is made due to hardship, the District shall ensure that the non-exempt employee's stipend pay complies with FLSA.

Supplemental stipends are not a property right and may be reallocated and/or reassigned at any time.

Annualized Pay

The District shall pay all salaried employees over 12 months in equal monthly or semi-monthly installments, regardless of the number of months employed during the school year. Salaried employees hired during the school year shall be paid in accordance with administrative regulations. The District will make deductions from each paycheck for income tax withholding and benefits.

Service Records/Proof of Prior Employment

Creditable years of service are defined by Commissioner's Rules. Original service records are required to ensure proper salary by ensuring proper placement on the District's experienced-based pay scales. Upon hire, service credit will be given to certified and/or licensed professional (exempt) employees. Legally recognized service records must be submitted no later than within 60 days of employment. An employee who fails to submit service records by the deadline will be adjusted to year zero of their pay scale and compensated accordingly until such time service records are submitted.

Teacher Compensation Scale

The Teacher Compensation Scale is used for the initial placement of teachers. The placement is based on the number of years or creditable service as specified in the TEA Commissioner's Rules on Creditable Service (TAC 153.1021) and Minimum Salary Schedule for Certain Professional Staff (TAC 153.1022).

The total years of creditable service must be verified by receipt of a Teacher Service Record or other acceptable documentation.

Supplemental Stipend Schedule

The Superintendent or designee shall assign supplemental duties to personnel as needed. These duties may be modified or discontinued at any time for any reason or no reason, at the sole discretion of the Superintendent. If reassigned, stipends will be prorated for the portion of a year in which the employee performs the supplemental duty. The assignment of these duties shall not create any expectation of continued assignment to that same duty or any other duty. An employee who requests to relinquish a supplemental duty listed in the Supplemental Stipend Schedule and be assigned solely to a classroom teaching position may do so only with the consent of the Superintendent. This policy does not create any contractual obligations or other expectations of employment in any supplemental duty assignment.
