
SATISFACTION WITH STUDENTS

SATISFACTION WITH STUDENTS: TEACHERS/STAFF

Teachers'/Staff's Satisfaction Rating Distribution

This graph shows the distribution of satisfaction scores teachers and staff provided for the overall student rating question.

Impact Index is a combination of the penalty and the % reporting the problem. It represents the percent of **potential improvement** that can be realized if the occurrence of the problem is reduced to zero.

Penalty for each issue is the difference between the mean satisfaction scores of those who reported that an issue was a problem and those who reported that the same issue was not a problem. The larger the penalty, the larger the effect of the problem is on satisfaction for those people who have experienced the issue.

SATISFACTION WITH STUDENTS ISSUES

Is the following a problem at your school?

	% with Problem	Penalty	IMPACT INDEX
Student apathy that affects learning?	52%	1.1	50%
