PARENTAL SUPPORT: TEACHERS/STAFF

Teachers'/Staff's Satisfaction Rating Distribution

This graph shows the distribution of satisfaction scores teachers and staff provided for the overall parental support rating question.

Impact Index is a combination of the penalty and the % reporting the problem. It represents the percent of **potential improvement** that can be realized if the occurrence of the problem is reduced to zero.

Penalty for each issue is the difference between the mean satisfaction scores of those who reported that an issue was a problem and those who reported that the same issue was not a problem. The larger the penalty, the larger the effect of the problem is on satisfaction for those people who have experienced the issue.
