2016-2017 Community & Student Engagement Ratings

Scoring for Ratings

The scores for each domain are determined at the campus level by providing an individual score for each indicator. Scores are assigned to each indicator using the scoring system below, with campuses omitting indicators that are not applicable. The results are tallied and averaged to determine the overall rating for each of the 8 domains. The scores for each domain are then tallied and averaged to determine the overall campus rating.

The domain scores for each campus are assigned a score using the system below and then averaged with the DEIC rating for each indicator to determine the District rating. The scores for each domain are then tallied and averaged to determine the overall District rating.

Exemplary = 3 points
