DISTRICT MISSION STATEMENT
Lago Vista ISD will equip students for the rigors of the 21st century by preparing them for a global-based digital economy. Lago Vista ISD will be recognized as a leader in educational innovation through technology, facilities, curriculum, volunteerism, and instruction.

Table of Contents

DISTRICT COMMITMENT TO PROFESSIONAL DEVELOPMENT

The Lago Vista ISD District Education Improvement Council (DEIC) crafted a District Improvement Plan that includes six goals. These goals were converted into commitment statements that will guide our day-to-day work and improvement processes through the next year:

Commitment #1: We will maximize student achievement by providing quality instruction and educational programs that meet the needs of all students, by developing an extensive curriculum that emphasizes collaboration, critical thinking, and creativity, by using high quality instructional strategies.

Commitment #2: We will provide a safe, nurturing educational environment that reflects a commitment to leadership, digital citizenship, service, integrity, character, and high expectations for all students.

Commitment #3: We will prepare graduates for success in post-secondary pathways by developing programs and activities that promote college readiness and that support pursuits in career and technology fields.

Commitment #4: We will attract, develop, and maintain high quality professionals by offering competitive pay and benefits and by working collaboratively to determine, meet, and facilitate their specific professional needs.

Commitment #5: We will welcome, inform, and nurture partnerships with our families and community partners to ensure active involvement in promoting high expectations, strong values, and the academic achievement and success of all students.

Commitment #6: We will develop an efficient, transparent, and collaborative approach to planning & decision-making that communicates the priorities, processes, initiatives, and challenges of the District to all stakeholders.

Our fourth commitment compels us to examine professional development in Lago Vista ISD and look for areas of improvement. We know that professional learning is most useful for improving instruction when it occurs in real time when participants can meet specific needs. We also know that it is most effective when participants are able to participate in professional learning that is in a focused environment, free from the distractions of day-to-day school business.

To meet these needs, Lago Vista ISD will continue to use Professional Development Exchange days. By providing for Professional Development Exchange days, Lago Vista ISD will allow and encourage our instructional staff to pursue professional learning when it is most appropriate for them. Furthermore, exchange days allow teachers to participate in self-selected activities that are differentiated to meet their individual needs.

EXCHANGE DAYS FOR TEACHERS, LIBRARIANS, & SPECIALISTS

Exchange days allow teachers to complete 12 hours of professional development during the year in exchange for an equal number of hours off at the end of the year. This year, the District will be closed for instructional staff on the following two (2) Professional Development Exchange Days:

<div align="center">

Monday, January 21, 2019
Monday, February 18, 2019

</div>

- ✓ In exchange for the 2 days off in the spring, teachers, librarians, and specialists must complete professional development equaling 12 total credit hours during non-contractual time.
- ✓ 12 credit hours are satisfied by successfully completing subject-area instruction training, as required by the Texas Education Agency.
- ✓ Exchange hours may be accumulated by attending professional development summer sessions, online sessions, or after-school sessions. A variety of options are included in this document. <u>All exchange hours must be completed during non-contractual or non-work time.</u>
- ✓ Only training endorsed or approved by the District will fulfill requisite professional development exchange hours. Outside training may be considered for credit if approved by campus administration.
- ✓ Professional development exchange credit hours may be accumulated between June 1, 2018 and January 7, 2019. Instruction-related summer training satisfies exchange credit hours (i.e., AP Summer Institute, OnRamps, etc.).
- ✓ All training must be documented with certificates and supplied to campus administration.

Campus & district administrators, counselors, office support staff, instructional paraprofessionals, and other non-exempt, non-instructional timeclock employees scheduled to work on January 21 and February 18 will work **as scheduled**.

FREQUENTLY ASKED QUESTIONS ABOUT EXCHANGE DAYS

What are Exchange Days?
Exchange Days are a way to exchange District-required professional development time for two designated days off during the school year. Rather than requiring instructional employees to be physically present for two 6-hour days of professional development, those employees accumulate an equivalent number of hours outside of the regular workday and substitute the hours for the designated professional development days on the calendar.

What is the purpose of Exchange Days?
Exchange Days promote appropriate and effective professional learning for all instructional staff by allowing professional development activities to be selected based on personal learning needs related to specific content areas. Instructional staff, with approval from their campus administrator, select professional development activities that best contribute to their own professional growth.

Who is required to earn credit for Exchange Days?
Teachers, instructional specialists, nurses, and librarians.

Who is not eligible to earn credit for Exchange Days?
Administrators, counselors, office support staff, instructional paraprofessionals, and other non-exempt, non-instructional time clock employees. These employees will work on January 21st and February 18th as scheduled.

How many hours of Exchange Credit do I need to earn?
Eligible employees must earn credit for two contract days, or 12 hours of professional development credit. Six hours of professional development time is equivalent to one contract day.

When are the Exchange Days?
The Exchange Days for 2018-2019 are January 21st and February 18th. The District will be closed for instructional staff on those days.

When does my Professional Development Exchange Credit have to be completed?
Teachers must submit all credit requests for Professional Development Exchange Time to their campus supervisors on or before January 7, 2019. Campus principals must submit the list of employees who have met the requirements for Exchange Days no later than January 11, 2019.

What professional development activities can be used to earn Exchange Time credit?
Eligible employees earn credit by attending professional development activities that relate directly to content-area instruction. **All exchange hour professional development activities must be selected with principal approval.**

Can teachers participate in online professional development for Exchange Time credit?

Yes, as long as the professional development is approved by the teacher's administrator and is completed outside of the teacher's regular contract hours.

What happens if I do not earn appropriate exchange hour credit for these days?

If appropriate credit hours for an Exchange Day are not earned for these days, pay will be docked at your daily rate of pay in order to return the unearned compensation received for the day(s). In addition, a day of leave will be docked for each unearned Exchange Day. Appeals due to extenuating circumstances may be made by submitting a letter in writing to the superintendent.

What happens if I earn _more_ than 12 professional development hours off contract?

Teachers may attend more than 12 hours of professional development, however, only 12 will count toward Exchange Day credit hours. Teachers must earn at least 12 hours to satisfy the Exchange Day requirement. All hours, including hours that count for Exchange Day credit, may count toward additional certifications or certification renewals.

If there is a fee associated with the professional development activity and the campus covers the cost of this fee, can the credit still be used for Exchange Time?

Yes, the campus can cover the cost of the professional development activity, with principal approval. Requests for campus funds to register for professional development must be requested in advanced and approved by the principal prior to registering. However, teachers should not receive supplemental stipends when earning Exchange Time credit.

What if I am an instructional paraprofessional?

Exchange days will no longer be used for instructional paraprofessionals. Training completed outside of regular contract hours will be done on the clock. Instructional paraprofessionals will be expected to work on the Exchange Days, but do have the option to use a non-duty day for the exchange day(s) because the staff development waiver from TEA does not apply to them.

COURSE OPTIONS TO FULFILL EXCHANGE HOURS

Employees eligible for exchange hours have an infinite array of professional development options to fulfill exchange hours. What follows are selected options for content-area exchange hour credit. This is not an exhaustive list, so if you are aware of another opportunity, it may still be approved for exchange hours. **All exchange hour professional development activities must be selected with principal approval.**

Since this professional development is replacing workdays in the spring semester, the only additional stipulation is that the staff development activities occur during non-contractual time. You are likely to participate in staff development that occurs during your work hours or that do not specifically address instruction for your content area. While those activities are very worthwhile and encouraged, they do not satisfy the exchange hour requirement.

In order to receive credit for exchange hours for outside trainings/workshops, certificates must be uploaded, and "exchange hour" credit must be requested in Eduphoria. **Note: It is crucial that you specifically request <u>exchange credit</u> in this process!**

IN-DISTRICT SUMMER TRAINING OPPORTUNITIES THAT SATISFY EXCHANGE HOURS

All exchange opportunities must be approved through your campus principal or supervisor using a PD Request form. [See Appendix] Course certificates for in-district trainings are automatically awarded through Eduphoria and do not need to be requested. ***Please register for the trainings below in Eduphoria. > **Completion of mandatory compliance training videos <u>does not</u> satisfy exchange hours for teachers, librarians, & specialists. These must be done in addition to exchange hours by <u>August 31, 2018</u>. They may be completed during work hours.**

NEW Office Support Staff and Other (Non-instructional) Non-exempt Timeclock Employees
Certain trainings are required of all new Lago Vista ISD employees. New office support staff and other (non-instructional) non-exempt timeclock employees must complete the following four (4) training modules during work hours by **August 31, 2018**:

> Bullying: Legal Issues and Practical Strategies (FA1738515)*
> Child Abuse & Neglect: Identification, Prevention & the Duty to Report (FA1738521)*
> The Essentials of Sexual Harassment in Public Schools (FA1738518)*
> Understanding FERPA (FA1738519)*

Instructions for All New Employees
Please remember that you must submit your certificates for these compliance trainings through Eduphoria. Please submit them as one request for 7 hours and attach all 7 certificates.
- Remember to select "Mandatory Training" as the type of credit.
- Enter the Title as "Mandatory Compliance Videos 2017".
- **The deadline to complete the videos is August 31, 2018.**
- **The deadline to request credit in Eduphoria is September 15, 2018.**

These procedures are important because they allow principals to pull a report to verify completion, rather than having to review each employee's portfolio individually.

*Required by ALL new school district employees.
