

Lago Vista Independent School District

Lago Vista Middle School

2023-2024 Improvement Plan

Mission Statement

Lago Vista Middle School will continue to establish a tradition of excellence by providing engaging curriculum and instruction that encourages collaboration, communication, and critical thinking, by leading educational innovation in technology and facilities, and by fostering community partnerships that create a community of learners dedicated to promoting high expectations and achievement for all students.

Vision

Lago Vista Middle School will provide the atmosphere and opportunity for all students to develop and maximize their social, emotional, and academic success.

District Commitments

We will maximize student achievement by providing quality instruction and educational programs that meet the needs of all students, by developing an extensive curriculum that emphasizes collaboration, critical thinking, and creativity, by using high quality instructional strategies.

We will provide a safe, nurturing educational environment that reflects a commitment to leadership, digital citizenship, service, integrity, character, and high expectations for all students.

We will prepare graduates for success in post-secondary pathways by developing programs and activities that promote college readiness and that support pursuits in career and technology fields.

We will attract, develop, and maintain high quality professionals by offering competitive pay and benefits, and by working collaboratively to determine, meet, and facilitate their specific professional needs.

We will welcome, inform, and nurture partnerships with our families and community partners to ensure active involvement in promoting high expectations, strong values, and the academic achievement and success of all students.

We will develop an efficient, transparent, and collaborative approach to planning & decision-making that communicates the priorities, processes, initiatives, and challenges of the District to all stakeholders.

Comprehensive Needs Assessment

Demographics

Demographics Summary

Lago Vista Middle School serves about 448 students in grades 6-8. 6th grade accounts for 129 students. 7th grade accounts for 152 students. 8th grade accounts for 139 students. Our enrollment was slightly lower this year and there was no surge in students. Our attendance rate is 95.04% on the average.

The student demographic breakdown for Lago Vista Middle School for September 2023 enrollment was : White 61%, Hispanic 30%, African American .4%, American indian .4%, Pacific Islander 0.2%, and Two or More Races 6%. For September 2023, Lago Vista Middle School has an ESL population of 49 kids (11%), a special education population of 61 kids (14%), a G/T population of 32 kids (8%), and an Economically Disadvantaged population of 92 kids (21%).

The teacher demographic breakdown: 16 content teachers, 8 full time elective teachers, 3 band instructors, 3 inclusion teachers, 1 life skills/functional academics teacher, 2 part time teachers, 6 paraprofessionals, 1 counselor, 1 assistant principal, 1 principal, 2 front office assistant/registrar, 1 librarian/nurse/attendance clerk.

Demographics Strengths

Enrollment and diversity continues to grow in Lago Vista Middle School. We have weekly attendance meetings that result in consistent communication to parents and students regarding the importance of attending school on a regular basis.

Problem Statements Identifying Demographics Needs

Problem Statement 1 (Prioritized): Planning, instruction, and support needs to be improved for all sub groups of students. **Root Cause:** We have an increasingly diverse population, especially with Economically Disadvantaged students and students who speak limited or no English.

Student Achievement

Student Achievement Summary

Lago Vista Middle School has had steady student performance, but there are still areas where progress is lacking.

Our campus had a number of factors that impacted student performance. We were in the middle of a pandemic, with students and teachers trying to balance online learning and face to face students. The teachers also lost the last nine weeks of the school year 19-20. Also, the STAAR test was not tied to accountability, so we had a large number of students not take the test.

Student Achievement Strengths

LVMS made significant gains in the STAAR test, with 100% Masters in Algebra I, and big gains across the board in all tests. All tests were above the State average.

Problem Statements Identifying Student Achievement Needs

Problem Statement 1: We are learning about the TEKS Resource system for our curriculum. **Root Cause:** We are in the first year of a new curriculum, and teachers need time to get used to the depth as well as the many resources available.

Problem Statement 2 (Prioritized): There is a need to implement timely interventions for students struggling with academics, behavior or social situations. **Root Cause:** Despite strong campus academic performance, our student progress throughout differing subgroups is still lagging behind. Also, students are losing class time due to behavioral or social struggles.

Problem Statement 3: Instructional practices and tools need to be updated in order to create 21st Century learners. **Root Cause:** There is a lack of current resources that are aligned to current TEKS as well as barriers to technology use.

School Culture and Climate

School Culture and Climate Summary

LVMS has went through a very challenging few years, and this year has been a bit of a fresh start. The students have been through a school year with higher expectations, and now we are having "normal" school again with pep rallies, school dances, etc.

School Culture and Climate Strengths

The staff has focused on having Solution based conversations. There is a genuine caring for our students and for other staff members. Teachers are not afraid to present problems to administration and work together to solve them. The staff has bought into the concept of our decisions being student focused.

Problem Statements Identifying School Culture and Climate Needs

Problem Statement 1 (Prioritized): Students are needing additional support in the area of Social and Emotional Learning. **Root Cause:** Students are faced with additional pressure outside of school that is causing a nation wide spike in anxiety, depression and more.

Problem Statement 2: There is limited time to build consensus and teacher ownership of school initiatives. **Root Cause:** The staff has many different duties throughout the day, and an 7 period day makes the day move extremely fast - finding time to meet is challenging.

Staff Quality, Recruitment, and Retention

Staff Quality, Recruitment, and Retention Summary

Teachers are provided regular walkthroughs by campus administrators, with opportunities for goal setting and self-reflection throughout the school year. New job postings are posted online and on Applitrack. Department heads and team members are invited to participate in the interview process and make recommendations for new hires. New staff is assigned a mentor as part of a prescribed mentor system. Staff is part of the improvement process by being part of the CIP teams, and nine weeks reflections and conferences. Teachers are provided staff development during August inservice, with monthly meetings during their conference periods to work on the implementation of the new technology.

Leadership team had a hand in creating questions for interviews, and named values that we are looking for in potential hires.

Staff Quality, Recruitment, and Retention Strengths

Opportunities include having a excellent, small community that is close to Cedar Park, Round Rock, and Austin, many opportunities for staff input, excellent students and parents, and population growth.

Problem Statements Identifying Staff Quality, Recruitment, and Retention Needs

Problem Statement 1 (Prioritized): New teachers to the district can be overwhelmed by the amount work and lack of resources available. **Root Cause:** In the past, teachers have been expected to write their own curriculum, but that has been problematic, especially for our elective teachers. Core teachers now are using TEKS Resource for their curriculum.

Curriculum, Instruction, and Assessment

Curriculum, Instruction, and Assessment Summary

Teachers are required to create a scope and sequence and unit plans for each course they teach. There are varying levels of success and thoroughness with this expectation. Teachers overall have a strong understanding of their content area. Walkthrough data shows that teachers are using Fundamental 5 best practices in their classroom to engage students. Assessments are given frequently to check for understanding. The RtI process is used to help students who are struggling. PLC meetings have been extremely helpful to give the teachers time to study and process the curriculum needs.

Curriculum, Instruction, and Assessment Strengths

Snapshots are being updated. PLC time has been instrumental in giving the teachers time to dig into their curriculum and build a stronger base of knowledge.

Problem Statements Identifying Curriculum, Instruction, and Assessment Needs

Problem Statement 1: Level of rigor and higher level thinking questions is lower than desired in the areas of instruction and assessment. **Root Cause:** Teachers are beginning to explore new resources in order to create robust instruction and assessment.

Problem Statement 2: We are learning about the TEKS Resource system for our curriculum. **Root Cause:** We are in the first year of a new curriculum, and teachers need time to get used to the depth as well as the many resources available.

Parent and Community Engagement

Parent and Community Engagement Summary

Parents are involved in several activities that support students' learning, such as athletic events attendance, band booster and athletic booster participation, curriculum nights, career spotlights, food donation for teacher treats, attendance at school meetings. Families and the community are primarily involved in school district decisions through membership on the Campus Education Improvement Committee. Forms for parents who speak only spanish are available, though this is an area of needed improvement. We have an excellent Special Olympics program.

Parent and Community Engagement Strengths

Booster clubs in athletics and band and parent participation in student-centered meetings is an area of strength. We have had many parents volunteer their time and make monetary donations to help our students as well.

Problem Statements Identifying Parent and Community Engagement Needs

Problem Statement 1: Parent participation at the middle school level has always been a challenge. **Root Cause:** Parents are pulled in so many different directions, it's hard to get them to volunteer any additional time.

Problem Statement 2: There needs to be better communication within and from the middle school on all levels. **Root Cause:** Communication has been inconsistent in the past three years.

School Context and Organization

School Context and Organization Summary

Priorities identified through the comprehensive needs assessment include planning for scalable growth, ensuring smart and efficient facilities and design, and increasing stakeholder input in the planning and improvement processes. Opportunities include district growth, high levels of community support, and high student achievement. Bi weekly District leadership team meetings occur to make sure campuses are well informed and on the same page.

School Context and Organization Strengths

Opportunities for staff to be involved in decision making through membership in department leadership, Professional Learning Communities, and Campus Improvement Teams.

Problem Statements Identifying School Context and Organization Needs

Problem Statement 1: There is little time to meet and plan as an organization because of limited availability of teachers. **Root Cause:** Our teachers are pulled in many different directions, and are mainly focused on their ever changing classrooms. Asking them to take on additional responsibilities is challenging.

Problem Statement 2: There is little time to provide intervention for struggling students. **Root Cause:** Advisory is 30 minutes long daily, and few opportunities exist throughout the remainder of the day.

Problem Statement 3: There is a need to help parents understand how to access curricular resources to support their students. **Root Cause:** Inconsistent ways of communicating classroom information throughout the school.

Technology

Technology Summary

Priorities identified through the comprehensive needs assessment include engaging students and teachers with the newest technology, preparing students to be digital citizens, and supporting teachers' growth and use of technology. Opportunities include the declining cost of technology, funding grants for technology, more communication through technology and more access for all students. Concerns include sustainability concerns, the difficulty of monitoring technology use (particularly as it relates to the Internet), keeping up with rapidly changing technology, and the wide spread district growth means challenges in infrastructure and capacity.

Technology Strengths

We are now a 1 to 1 campus with iPads. Technology department has been quick to resolve student issues.

Problem Statements Identifying Technology Needs

Problem Statement 1: Technology will often not work, or be dropped and broken, which causes a student to go without an iPad and become behind on work. **Root Cause:** A workable solution for students without iPads has not been able to be developed yet.

Priority Problem Statements

Problem Statement 1: There is a need to implement timely interventions for students struggling with academics, behavior or social situations.

Root Cause 1: Despite strong campus academic performance, our student progress throughout differing subgroups is still lagging behind. Also, students are losing class time due to behavioral or social struggles.

Problem Statement 1 Areas: Student Achievement

Problem Statement 2: Planning, instruction, and support needs to be improved for all sub groups of students.

Root Cause 2: We have an increasingly diverse population, especially with Economically Disadvantaged students and students who speak limited or no English.

Problem Statement 2 Areas: Demographics

Problem Statement 3: Students are needing additional support in the area of Social and Emotional Learning.

Root Cause 3: Students are faced with additional pressure outside of school that is causing a nation wide spike in anxiety, depression and more.

Problem Statement 3 Areas: School Culture and Climate

Problem Statement 4: New teachers to the district can be overwhelmed by the amount work and lack of resources available.

Root Cause 4: In the past, teachers have been expected to write their own curriculum, but that has been problematic, especially for our elective teachers. Core teachers now are using TEKS Resource for their curriculum.

Problem Statement 4 Areas: Staff Quality, Recruitment, and Retention
