### Agreement for the purchase of Attendance Credits (No Election Required)

This agreement is entered into pursuant to Subchapter A and D, chapter 41, Texas Education Code (TEC), and rules adopted by the commissioner of education as authorized by Section 41.006, TEC. The purpose of this agreement is to enable the district to reduce its wealth per weighted student to a level that is not greater than the equalized wealth level as determined by the commissioner of education in accordance with section 41.002, TEC

The school year to which this agreement applies is <u>2010-2011</u> (the "school year"). The agreement is for <u>Lago Vista ISD</u> school district ("the district"), with a county-district number of <u>227912</u>, to purchase attendance credits from the state for the school year.

Initial payments will be based on the commissioner's estimate of the cost of each credit using the district's projected maintenance and operations tax revenue and the estimated number of weighted students in average daily attendance for the school year (Section 41.093, TEC). The district agrees to make payments in accordance with the schedule specified in Section 41.094, TEC.

The actual cost of each credit will be determined by the commissioner in accordance with Section 41.093, TEC, when final data are available for the school year on the district's maintenance and operations tax revenue and the number of weighted students in average daily attendance. If that amount is less than the amount paid by the district through August 15 of the school year, the difference will be refunded. If that amount is greater than the amount paid, the district shall remit an amount equal to the difference for deposit in the state treasury to be used for Foundation School Program.

The cost of purchased attendance credits will be reduced for county appraisal district (CAD) costs. The reduction will be computed in accordance with Section 41.097, TEC. If the reduction exceeds the cost for the school year, the difference will be carried forward and applied to each subsequent year's cost until the total amount of the reduction has been exhausted.

#### TO THE ADMINISTRATOR ADDRESSED:

SUBJECT: Expedited Waiver Related to the Timeline for New Accelerated Instruction Requirements under the Student Success Initiative

This letter provides districts and charter schools with important information about new accelerated instruction requirements related to the Student Success Initiative (SSI) through the enactment of House Bill 3 by the 81<sup>st</sup> Texas Legislature.

To ensure that all students receive the instruction and support they need to be academically successful in mathematics and reading, House Bill 3 includes an accelerated instruction provision in the Student Success Initiative (SSI). This provision requires districts and charter schools to provide accelerated instruction to students in grades 5 and 8 who do not demonstrate proficiency on the Texas Assessment of Knowledge and Skills (TAKS) reading and/or mathematics tests. This accelerated instruction must occur after each administration of the test, **including the third administration**. A student may advance to or be placed in the next grade level only if (1) he or she completes all accelerated instruction required by the grade placement committee (GPC), and (2) the GPC determines, by unanimous decision, that the student is likely to perform at grade level at the end of the next school year given additional accelerated instruction during the course of the year.

For students receiving special education services the student's admission, review, and dismissal (ARD) committee will continue to determine appropriate assessment and accelerated instruction for each eligible student. Assessment decisions, including those about accelerated instruction, must be made on an individual basis and in accordance with procedures established by TEA. These decisions must be documented in the student's individualized education program.

To assist districts and charter schools in meeting the accelerated instruction provision after the third administration of the test, the agency is allowing districts and charter schools to apply for an expedited waiver to adjust the timeline for providing accelerated instruction to students who fail the third administration. Approval of the waiver would allow districts and charter schools to promote or place these students in the subsequent grade during the first six weeks of the school year prior to the completion of the accelerated instruction. The waiver will be granted if districts and charter schools meet certain conditions, which are specified below:

- identifying the intensive instruction a student needs
- targeting this intensive instruction to the TAKS objectives on which the student demonstrated weakness
- ensuring that this intensive instruction is completed during the first six weeks of school
- documenting that the student has completed this intensive instruction

In addition to intensive accelerated instruction, the GPC must develop an accelerated instruction plan that will provide the student with ongoing instructional support during the entire school year.

The deadline for submitting an expedited waiver request to adjust the timeline for accelerated instruction for the 2010–2011 school year is September 30, 2010. The application for expedited and general state waivers is available online at <a href="http://www.tea.state.tx.us/index2.aspx?id=6637&menu">http://www.tea.state.tx.us/index2.aspx?id=6637&menu</a> id=932&menu id2=788.

MEMORANDUM TO: Lago Vista Independent School District

SUBJECT: Extracurricular status of Travis County 4-H

The State Board of Education passed an amendment to 19 TAC§129.21 (k) (1). Requirements for Student Attendance Accounting for State Funding Purposes allows public school students to be considered "in attendance" when participating in off-campus activities with an adjunct staff member of the school district. Section 3 of the Student Attendance Handbook states:

- (4-12) 1. The student is participating in an activity which is approved by the local board and is under the direction of a professional staff member of the school district or an adjunct staff member. This adjunct staff member must have a minimum of a bachelor's degree and be eligible for participation in the Teacher Retirement System of Texas.
- (4-13) Students participating in any activity which is not approved by the local school board and/or without certified district personnel supervision are counted absent [see 94-12]. To qualify for funding purposes, the certified district staff member/adjunct staff member must be accompanying the students as an official of the school district for the specific purpose of supervising the students and must be approved by the school board to supervise the activity. For example, students participating in 4-H activities which are supervised solely by a County Extension Agent are reported present.

This amendment provides local school boards the opportunity to recognize county Extension agents as adjunct staff members and to count students participating in 4-H/Extension educational activities "in attendance for Foundation School Program purposes."

Travis County requests adjunct staff member status for the county Extension agents for the school year 2010-2011. The following faculty are eligible for participation in the Teacher Retirement System of Texas and have a minimum of a bachelor's degree.
